## General Surgeon

MBChB Stellenbosch 1999  
MMed(Surgery) 2012  
FCS 2011

### A short introduction:

In November 1999 I qualified as a doctor after obtaining the MBChB degree from Stellenbosch University. I completed my Internship and Community Service in 2000 and 2001 at George Hospital and Mossel Bay Hospital in the Southern Cape. In 2002 I worked an additional year in the Department of Surgery at George Hospital. It is here that my interest in surgery was sparked.

At the end of 2002 I moved to England, where I acquired valuable experience working in various surgical disciplines, among others general, vascular, plastic and neurosurgery as well as urology and Accident and Emergency. I returned to South-Africa towards the end of 2005 to further my surgical training.

On my return I worked in the Surgical Department of Karl Bremer Hospital for 18 months. In June 2007 I was appointed as Clinical Assistant at Tygerberg Hospital. Here I specialising as General Surgeon. In 2011 I obtained my MMed degree in Surgery from Stellenbosch University, as well as an FCS (Diploma in Surgery) from the South African College of Medicine. Currently I practice as General Surgeon in the Breede River Valley.

I can assist with all the aspects pertaining to the General Surgery field with special interests in Laparoscopic Colorectal Surgery and Minimal Access Venous Surgery.
