MMed (Plast and Recon) (Stell) 2023
Practice No.: 1138340

A short introduction:

Dr Siddharth Gautam, fondly referred to as Dr. Sid by his patients, is a board-certified plastic, reconstructive and aesthetic surgeon, with a special interest in facial plastic surgery, breast reconstruction, skin cancer surgery, microsurgery, body contouring and cosmetic surgery.

His professional career began at the University of Stellenbosch where he graduated with a bachelor's degree in medicine and surgery. After completing two-years of internship and one-year of community service at Worcester Provincial Hospital, he worked 2-years as a medical officer in general surgery at George Provincial Hospital. Thereafter, he went on to specialise at Tygerberg Hospital, where he completed three years of general surgery and a further five years in Plastic and Reconstructive Surgery. He is a fellow of the College of Plastic Surgeons and completed his MMed at the University of Stellenbosch. He is appointed as a specialist in the Burns Unit and in the Division of Plastic and Reconstructive Surgery at Tygerberg Hospital.

During his professional career, Dr Sid has had the privilege of observing several well-known cosmetic and reconstructive surgeons. He regularly attends and presents at local as well as international congresses.

His warm and trusting bedside manner allows him to connect with each of his patients on both a professional and personal level and his unfaltering devotion to his work ensures that his patients are advocated for, and only receive the finest quality care.

He is the co-founder and director of S & S Aesthetics Clinic based in Foreshore, Cape Town.
